# ¿CÓMO UTILIZAR EL MATERIAL?

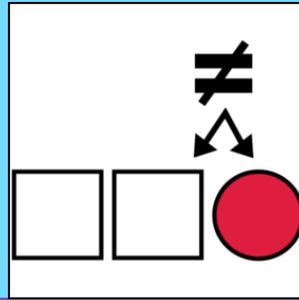

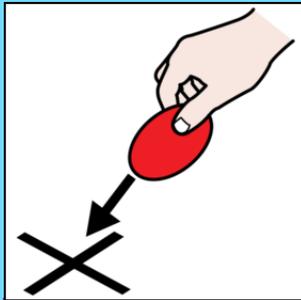

He preparado este material para trabajar con niñ@s habilidades de lógica y abstracción. Es necesario comprensión de pictos.

El material viene preparado para trabajar de dos formas diferentes:

- de forma muy manipulativa, pegando el picto "diferente" en el cuadro vacío. (le ofreces los cuatros pictos para que elija "el diferente")
- o si el niñ@ ya tiene trazo, puede tachar el picto "diferente".

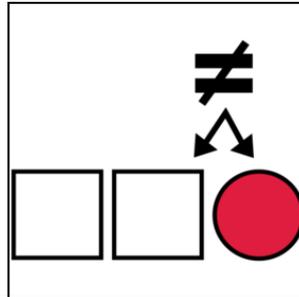

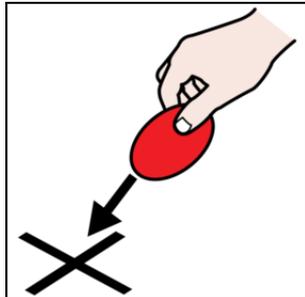

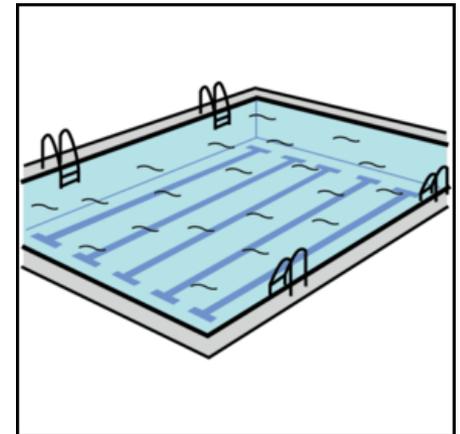

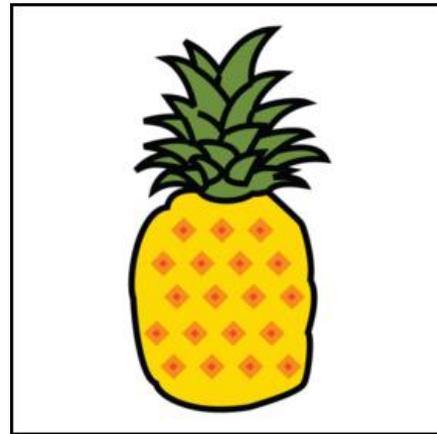

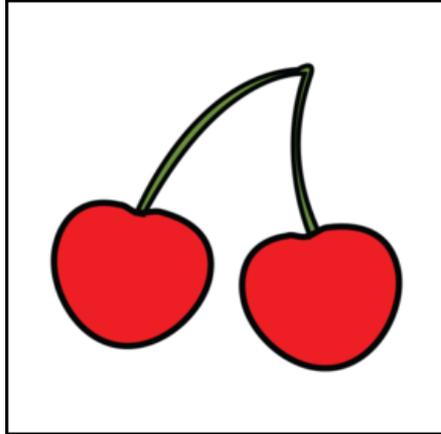

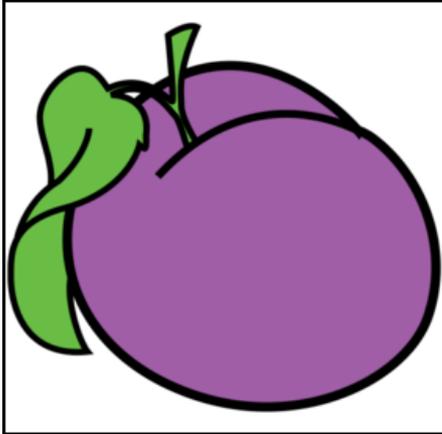

Preparado para imprimir y plastificar.

Por supuesto no es necesario que el niñ@ sea verbal, porque trabajamos la cognición de forma paralela a la estimulación de la comunicación y el lenguaje.
